

Mobile Mining Complex 20 feet

Specifications:

Parameter	Value
Metallic shelving 9-shelf 2000x1000x400, piece.	5
Maximum total electrical power	420
Maximum total electrical power of the equipment, no more, kW	240
The maximum electrical power of equipment, per rack is not more, kW	43
Maximum weight of equipment per rack, kg	225
Total maximum mass of equipment, kg	1125
Total maximum mass of all internal equipment of the complex, kg	1935
Minimum width of the doorway in the "cold" passage, mm	750
Width of "hot" passage, mm	900
Width of "cold" passage, mm	1000
Width of the rack, not more than, mm,	400
Number of lamps (main lighting)	4
Availability of doors with mechanical lock	есть
The presence of swing gates	есть
The possibility of transportation by transport, designed to transport a standard 20-foot container	есть
Average deployment time in a new location, no more than 24 hours	1
Ambient temperature, ° C	-40...+35
Overall dimensions, LxWxH, mm	6058x2438x2250
Weight without all equipment, kg	2100
